A HERO GROUP INITIATIVE

School of Law

From Here to the World

SCHOOL OF LAW

The School of Law (SOL) offers five-year integrated programmes of B.A. LL.B (Hons.) and B.B.A. LL.B (Hons.); a three-year LL.B. (Hons.) programme; and a PhD programme. Our undergraduate programmes equip students with future-oriented skills expected of a quality, internationally competent lawyer. Our programmes encourage curiosity about the law, build confidence to ask critical questions, and equip students to navigate the social and technological complexities of our times. The programmes lay emphasis on legal writing, analysis, advocacy, interdisciplinary approaches, legally relevant technological competence, and social service through legal aid clinics. We aim to cultivate scientifically minded, constitutionally rooted, and internationally oriented lawyers.

Courses at SOL are taught collaboratively by academics and practitioners. Experiential learning is fostered through case-based discussions, learning through live cases, and peer learning. Fifty percent of the time at School of Law (SOL) is spent on experiential learning where students learn by doing, and nurture the spirit of critical inquiry and innovation.

FACULTY

 Prof. (Dr.) Pritam Baruah Dean, School of Law	 Dr. Kavita Chawla Assistant Professor	 Dr. Vikas Kathuria Associate Professor	 Mr. Aditya Rathore Assistant Professor	 Mr. Anubhav Raj Shekhar Assistant Professor	 Ms. Urmi Gupta Assistant Professor
 Mr. Satya Prasoon Assistant Professor	 Mr. Sunishth Goyal Faculty Associate	 Dr. Akhilendra Singh Assistant Professor	 Ms. Saumya Maheshwari Assistant Professor	 Dr. Shayequa Ali Assistant Professor	 Dr. Adithya Chintapanti Professor (Joining in June 2022)

Quality Faculty from NLUs and International Universities

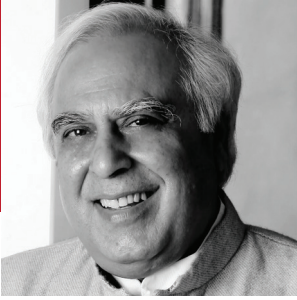

Our faculty includes graduates from top National Law Universities and leading international universities.

Distinctive Method of Designing Courses

Our courses are designed to ensure that they speak to each other. Course content is vetted and vigorously debated by our faculty to facilitate students in making connections between courses. We also connect questions in each course to technologically related issues: impact of AI on rights, informational privacy and technology in constitutional law, DNA sampling and use of algorithms in criminal law.

INTERDISCIPLINARITY: LAW, TECHNOLOGY, SCIENCE, MANAGEMENT AND THE ARTS

SOL is situated in a truly interdisciplinary context with a School of Management (SOM) and the School of Engineering and Technology (SOET). BMU promotes dialogue between different streams of knowledge. Expert faculty from SOM and SOET regularly engage with students at SOL through lectures and open events. We are introducing courses and modules on cutting edge technologies such as artificial intelligence and coding to law students. These courses are delivered by leading experts from SOET.

The law programmes offer electives in a range of areas including Cyber Laws, Data Privacy, Technology and Human Rights, Environmental Law, White Collar Crimes; Indirect Taxation; International Trade and Investment Law; Gender Justice and Feminist Jurisprudence; Human Rights Law and Practice; Patent Drafting and Specification Writing; Intellectual Property Law; Media & Law; International Environmental Law; Law, Technology, and Innovation; and Constitutional Values.

TRANSFORMATIVE LEARNING THROUGH PERSONALIZED EDUCATION

SOL has a Faculty-Students Ratio of 1:7. We are committed to small batch sizes. This translates into greater personalized attention that enhances quality learning.

Our Personalized Education Programme identifies talents and potential of each individual student to design a tailored path for academics growth and career-based training. In the initial years we work on foundational skills such as writing, comprehension, critical thinking, and public speaking. Later years focus on career guidance. This helps students to continuously improve themselves and evolve into well rounded legal professionals with wide career options.

DEDICATED INFRASTRUCTURE FOR LAW STUDENTS MOOT COURT HALL

BMU has a state-of-the-art moot court hall inspired by international courts for simulation of courtroom activities within the university. It provides an architectural space essential for students to be ready and confident to grapple with post law-school challenges. Moot courts contribute towards achieving this goal. BMU moot court teams have been extraordinarily successful, and we hope to continue that trend.

STATE-OF-THE-ART LIBRARY

BMU hosts an enriching collection of books and experiential learning materials. The law must be understood contextually, and so we lay special emphasis on procuring books from different disciplines along with the best legal texts. The library hosts over one thousand one hundred and fourteen titles specific to law. To promote cutting-edge research, BMU provides access to numerous online materials including Lexis Nexis, Manupatra, AIR Online, SCC online and makes them available in a user-friendly way.

INSTITUTE OF INNOVATION & ENTREPRENEURSHIP

BMU has established the Institute of Innovation & Entrepreneurship (I2E) to facilitate innovation and entrepreneurship at the University. Students are provided support and mentorship through developing and nurturing their ideas to giving them final form through start-ups. Support includes guidance on incorporating a company, validating a business model, formulating a go-to-market strategy, and building a core team.

INTERNATIONAL COLLABORATIONS

BMU has collaborated with some of the best international universities to create a meaningful international learning experience for our students. SOL has a stellar International Academic Advisory Board that connects us to leading legal minds across the world. Members of our board include academics from Oxford, Melbourne, Humboldt, Yale, Academia Sinica Taiwan, Yonsei University, Rio de Janeiro, Harvard, and NLSIU Bangalore. Our international collaborations ensure that students get a modern, experiential and transnational learning experience. We work with international thought leaders in curriculum-development, programme structure, immersion programmes, faculty exchange programmes, and research. Some of the leading universities with whom BMU has partnered are Imperial College London, University of Warwick, Kent State University, University of Michigan-Flint, USA, Singapore Management University, London School of Economics, Purdue Northwest University, Aston University, Saint Mary's College of California, University of Agder, Babson Academy.

INTERNATIONAL IMMERSION PROGRAMME

At BMU School of Law, students get an opportunity to go for an International Immersion Programme (IIP) which is an optional module offered during the degree programme. The IIP facilitates a global and progressive learning environment for students. The programme focusses on providing students an international exposure by learning from some of the best academics in the world. It also serves as a platform to meet their foreign peers and exchange ideas and practices for holistic development. Currently, BMU has partnered with one of the world's best social science universities, the London School of Economics and Political Science for the IIP.
