Environmental & Green Policy

BML Munjal University, Gurugram is committed to managing its estates in accordance with responsibilities to the environment. These responsibilities shall be demonstrated within the following areas as a minimum:

1. **Tobacco Free premises:** The college administration pledges to make the premises totally tobacco free. No smoking or other type of tobacco products shall be allowed to inside the campus.
2. **Purchasing:** In purchasing its services, materials, equipment, and consumable items, the BML Munjal University, Gurugram will, where possible, purchase items produced in ways which do least environmental harm, which are not supplied with excessive packaging, which are benign or at least harmless in their effect on the environment. Where possible, campus input to the local community as well as reduction of environmental impact due to transportation.
3. **Cleaning:** The university shall use cleaning products based on environmental considerations as well as cost and suitability. It will monitor its working practices with a view to administering dosages so as to reduce the risk of over concentration and excess residue of unused cleaning mixtures finding their way into piped waste disposal systems.
4. **Waste Disposal and Recycling:** The university will seek to minimize its generation of waste by reduction of purchased materials where this does not compromise its primary functions, or by re-use of materials within or outside the university campus. Where reduction or re-use is not feasible, materials will be recycled wherever possible.
5. **Energy:** The university is environmentally responsible for its use of energy, and will therefore consider the sources, type, origin and destination of energy input and output throughout the premises. This will require careful monitoring of consumption, the elimination of excessive or unnecessary use, and an ongoing program of energy conservation. There are already renewable energy solar PV plants installed and in future also efforts shall be made to use renewable energy to the extent possible for mitigation of impact of energy use by university on environment.
6. **New Build and Building Refurbishment:** The university will ensure that whenever new construction or refurbishment, work is planned and executed in a manner which reflects environmentally responsible approaches defined by the National Building Code-2016.
7. **Green Travel Plan:** The university actively promotes the use of public transport, walking and cycling. The university, where possible encourages students and staff to use public transport when on college assignments. This plan is regularly reviewed. The travel of students shall also be encouraged through public or shared transport.

8. **Food Policy:** The university will ensure that decisions pertaining to the purchase of food, together with the use and disposal of plastic crockery/cutlery, should at all times include environmental implications as well as such factors as cost and nutritional value.
9. **Environmental Rules and Guidelines:** The university commit to ensure compliance to extant pollution control and other applicable environmental guidelines.
10. **Water Use:** The university intends to promote optimization of water use by avoidance of wastage, treatment, recycling, and re-use of black water for other possible uses.
11. The university also commits for plastic free environment in premises.
